

HEAD INSTRUCTIONS—HOLDING TANK

1. Open water inlet valve.

2. Pump 3 times (up & down) to put some water in the bowl.

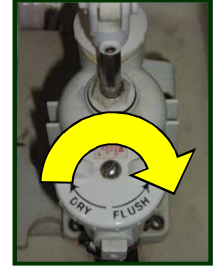

3. Do your business...

★ Nothing but waste and TP in the bowl!

4. Pump all your business away plus 5 more strokes.

5. Close the inlet water valve. Pump until the water is gone from the bowl.

6. Close the lid!
